

EURO Advisory

Advanced filing for UAE (MPCI) - UPDATE September 2026

Dear Valued Customer,

Further to our earlier announcement dated June 26, 2026, we would like to remind you that, effective June 30, 2026, MPCI-Filing (Maritime Pre-Load Cargo Information Program), administered by the National Advance Information Center (NAIC), became mandatory in the United Arab Emirates (UAE).

On June 25, 2026, the NAIC announced that the filing requirement remains mandatory. However, do-not-load holds and penalties have been suspended until September 30, 2026. Therefore, we continue to require the complete MPCI data set for all applicable shipments. During this temporary period, however, there will be no consequences for incorrect or incomplete information.

Please note that effective October 1, 2026, complete and accurate MPCI filing will be strictly mandatory. Non-compliance may result in penalties and/or the cargo being prevented from loading.

For further details and the required information, please refer to the [attached sheet](#).

Should you have any questions, please contact your local Shipco representative who will be ready to assist you at any time.

**Sincerely,
Shipco Transport**
